## 2. PREAMBLE

The overall aim of this Port Waste Reception and Handling Plan is to protect the marine environment by reducing discharges into the sea of ship generated wastes and cargo residues; to improve the availability and use of reception facilities and strengthen the enforcement regime.

The plan is compiled by Rosslare Europort Harbour Master in consultation with relevant Company Managers, port users, ships agents, contractors, and other interested parties.

Consultations will continue with all relevant Company Managers, port users, ships agents, contractors, and other interested parties throughout.

Overall control of the Waste Management remains with the Harbour Master.

The Port Waste Reception and Handling Plan is available on the Rosslare Europort Website. <https://www.rosslareeuroport.ie/en-ie/port-authority#waste-management-plan>

Its objectives are to:

- Reduce illegal discharge of waste from vessels into the sea
- Fulfil legal duties with regards to waste management
- Consult with users, agents, operators, contractors and regulators in the development and implementation of waste management strategies and measures
- Minimise the production of waste wherever possible
- Re-use or recycle waste wherever possible
- Dispose of waste so to minimise negative environmental effects.
- To eliminate the risk of introducing exotic diseases to the animal population of Ireland by ensuring the safe handling and disposal of International Catering Waste when landed at Rosslare Europort

<b>DOCUMENT:</b>	PORT WASTE RECEPTION & HANDLING PLAN	<b>ISSUED BY:</b>	Harbour Master

<b>Document No.</b>		<b>REVISION</b>	14

### 3. DEFINITIONS

#### 3.1. Special garbage

- General Engine Room Garbage including Oily Rags, dried oil filters, various plastic packaging
- Scrap Metal
- Paint Waste and solvent residues including empty packets / tins / bottles
- Empty Oil and chemical containers
- Electronic Garbage
- Used Lights / Fluorescent Tubes

#### 3.2. International Catering Waste (ICW)

- There is a presumption that all catering waste arriving in Ireland by sea or air is International Catering Waste unless proof is provided otherwise.
- Because of the special handling requirements required by the Dept of Agriculture, food and the Marine the port will require 24 hrs (48 hrs if possible) notice to handle such waste. This notice period is required so as the port can organise an ICW receptacle prior to arrival of the vessel.
- Catering waste is defined as all waste food of animal (including dairy), avian or fish origin originating in restaurants, catering facilities and kitchens including commercial and household kitchens and includes packaging (tin foil, cling film, plastic containers, drink cans) that has been in contact with the above waste.

#### 3.3. Domestic garbage

- Office paper
- Newspapers / Magazines
- Glass – bottles, broken glasses
- Tin / Aluminium Cans
- Plastic
- General Domestic Garbage
- Catering Waste (from any means of transport operating internationally)  
**“operating internationally”**: all means of transport operating internationally is a transport between two countries; even two EU MS. For example, this includes these of EU origin that leave the national ground or the coastal seas before returning to the EU and those making a first stop-over in the EU before arriving at the final destination.

<b>DOCUMENT:</b>	PORT WASTE RECEPTION & HANDLING PLAN	<b>ISSUED BY:</b>	Harbour Master
<b>Description</b>	PORT WASTE RECEPTION & HANDLING PLAN 2023 – 2028	<b>REVIEW DATE</b>	23rd November 2023
<b>Document No.</b>		<b>REVISION</b>	14

### 3.4. Cardboard boxes

### 3.5. Oily sludge

- Accumulated in double-bottom tanks.

### 3.6. Sewage

- Untreated Sewage, Filters etc.

<b>DOCUMENT:</b>	PORT WASTE RECEPTION & HANDLING PLAN	<b>ISSUED BY:</b>	Harbour Master

## 4. RELEVANT LEGISLATION

### 4.1. Overarching Legislation

- EU Directive 2019/883 of the European Parliament and of the Council on port reception facilities for the delivery of waste from ships
- S.I. No. 296 of 2021: European Union (Port Reception Facilities for the delivery of waste from ships) Regulations 2021
- Directive 2002/84/EC amending the Directives on maritime safety and the prevention of pollution from ships
- Directive 2005/35/EC on ship-source pollution and on the introduction of penalties for infringements
- Directive 2009/123/EC amending Directive 2005/35/EC on ship-source pollution and on the introduction of penalties for infringements
- S.I. No. 542 of 2010: European Communities (Ship-Source Pollution) Regulations 2010
- Directive 2002/59/EC establishing a Community vessel traffic monitoring and information system and repealing Council Directive 93/75/EEC
- Directive 2009/17/EC amending Directive 2002/59/EC establishing a Community vessel traffic monitoring and information system
- S.I. No. 573 of 2010: European Communities (Vessel Traffic Monitoring and Information System) Regulations 2010
- Commission Directive 2011/15/EU amending Directive 2002/59/EC of the European Parliament and of the Council establishing a Community vessel traffic monitoring and information system
- S.I. No. 71 of 2012: European Communities (Vessel Traffic Monitoring and Information System) (Amendment) Regulations 2012
- Commission Directive 2014/100/EU amending Directive 2002/59/EC establishing a Community vessel traffic monitoring and information system
- S.I. No. 367 of 2016: European Communities (Vessel Traffic Monitoring and Information System) (Amendment) Regulations 2016
- S.I. No. 550 of 2017: European Communities (Vessel Traffic Monitoring and Information System) (Amendment) Regulations 2017
- Directive (EU) 2016/802 of the European Parliament and of the Council of 11 May 2016 relating to a reduction in the sulphur content of certain liquid fuels
- S.I. No. 361 of 2015: European Union (Sulphur Content of Marine Fuels) Regulations 2015
- Sea Pollution Act, 1991
- Sea Pollution (Amendment) Act, 1999
- Sea Pollution (Miscellaneous Provisions) Act, 2006

<b>DOCUMENT:</b>	PORT WASTE RECEPTION & HANDLING PLAN	<b>ISSUED BY:</b>	Harbour Master
<b>Description</b>	PORT WASTE RECEPTION & HANDLING PLAN 2023 – 2028	<b>REVIEW DATE</b>	23rd November 2023
<b>Document No.</b>		<b>REVISION</b>	14

#### 4.2. Statutory Instrument(s) giving effect to MARPOL Annex I

- S.I. No. 788 of 2007: Sea Pollution (Prevention of Oil Pollution) Regulations 2007
- S.I. No. 282 of 2008: Sea Pollution (Prevention of Oil Pollution) (Amendment) Regulations 2008
- S.I. No. 664 of 2010: Sea Pollution (Prevention of Oil Pollution) (Amendment) Regulations 2010
- S.I. No. 365 of 2011: Sea Pollution (Prevention of Oil Pollution) (Amendment) Regulations 2011
- S.I. No. 275 of 2014: Sea Pollution (Prevention of Oil Pollution) (Amendment) Regulations 2014
- S.I. No. 461 of 2016: Sea Pollution (Prevention of Oil Pollution) (Amendment) Regulations 2016
- S.I. No. 578 of 2016: Sea Pollution (Prevention of Oil Pollution) (Amendment) (No. 2) Regulations 2016
- S.I. No. 582 of 2016: Sea Pollution (Prevention of Oil Pollution) (Amendment) (No. 3) Regulations 2016
- S.I. No. 236 of 2018: Sea Pollution (Prevention of Oil Pollution) (Amendment) Regulations 2018

#### 4.3. Statutory Instrument(s) giving effect to MARPOL Annex II

- S.I. No. 217 of 2008: Sea Pollution (Control of Pollution by Noxious Liquid Substances in Bulk) Regulations 2008
- S.I. No. 393 of 2017: Sea Pollution (Control of Pollution by Noxious Liquid Substances in Bulk) (Amendment) Regulations 2017

#### 4.4. Statutory Instrument(s) giving effect to MARPOL Annex III

- S.I. No. 510 of 2013: Sea Pollution (Harmful Substances in Packaged Form) Regulations 2013
- S.I. No. 459 of 2016: Sea Pollution (Harmful Substances in Packaged Form) (Amendment) Regulations 2016

#### 4.5. Statutory Instrument(s) giving effect to MARPOL Annex IV

- S.I. No. 269 of 2006: Sea Pollution (Prevention of Pollution by Sewage from Ships) Regulations 2006

<b>DOCUMENT:</b>	PORT WASTE RECEPTION & HANDLING PLAN	<b>ISSUED BY:</b>	Harbour Master
<b>Description</b>	PORT WASTE RECEPTION & HANDLING PLAN 2023 – 2028	<b>REVIEW DATE</b>	23rd November 2023
<b>Document No.</b>		<b>REVISION</b>	14

- S.I. No. 281 of 2008: Sea Pollution (Prevention of Pollution by Sewage from Ships) (Amendment) Regulations 2008
- S.I. No. 372 of 2008: Sea Pollution (Prevention of Pollution by Sewage from Ships) (Amendment) (No.2) Regulations 2008
- S.I. No. 492 of 2012: Sea Pollution (Prevention of Pollution by Sewage from Ships) (Amendment) Regulations 2012

#### 4.6. **Statutory Instrument(s) giving effect to MARPOL Annex V**

- S.I. No. 372 of 2012: Sea Pollution (Prevention of Pollution by Garbage from Ships) Regulations 2012

#### 4.7. **Statutory Instrument(s) giving effect to MARPOL Annex VI**

- S.I. No. 313 of 2010: Sea Pollution (Prevention of Air Pollution from Ships) Regulations 2010
- S.I. No. 383 of 2011: Sea Pollution (Prevention of Air Pollution from Ships) (Amendment) Regulations 2011
- S.I. No. 596 of 2011: Sea Pollution (Prevention of Air Pollution from Ships) (Amendment) (No. 2) Regulations 2011
- S.I. No. 35 of 2013: Sea Pollution (Prevention of Air Pollution from Ships)(Amendment) Regulations 2013
- S.I. No. 48 of 2017: Sea Pollution (Prevention of Air Pollution from Ships) (Amendment) Regulations 2017

#### 4.8. **Statutory Instrument(s) giving effect to other international legislation**

- S.I. No. 82 of 2008: Sea Pollution (Control of Harmful Anti-fouling Systems on Ships) Regulations 2008

#### 4.9. **Other Legislation**

- Waste Management Act, 1996 [No. 10 of 1996]
- Waste Management (Amendment) Act, 2001 [No. 36 of 2001]
- Protection of the Environment Act, 2003 [No. 27 of 2003]
- Diseases of Animals Act, 1966
- Diseases of Animals (Amendment) Act, 2001
- S.I. No. 153 of 1985: Diseases of Animals (Feeding and Use of Swill) Order 1985

## 5. ASSESSMENT OF NEED

The primary customers of Rosslare Europort are consulted on an ongoing basis so as to establish their actual waste reception requirements.

The Primary Customers in Rosslare Europort are;

- Irish Ferries
- Stena Line
- DFDS
- Brittany Ferries
- Finnlines

Analysis from this consultation process, establishes that:

- In general, the Port handles RORO vessels only, which do not have cargo residues to discharge ashore. It will be the responsibility of both the ship and the Stevedores/Cargo Receivers to collect and dispose of any waste accumulated from the load/discharge of cargo. It is expected that the Stevedore/Receiver will, as soon as possible after completion of cargo, dispose of any cargo residues remaining on the berth.
- There is provision for scheduled vessels to apply for an exemption to these regulations for which the Port assists in the process.
- There is a requirement for the Port only to receive waste from non-scheduled vessels. Exempted RoRo vessels make their own arrangements at each end of their route.
- Non exempted vessels account for ~3% of all traffic. They are generally coasters with small crew numbers on short voyages from the UK.
- Occasional visits by Fishing Vessels and recreational craft are handled by the reception arrangements for other terminal waste at Berth 4 or Fisherman’s Quay, and disposed of as general waste.

<b>DOCUMENT:</b>	PORT WASTE RECEPTION & HANDLING PLAN	<b>ISSUED BY:</b>	Harbour Master
<b>Description</b>	PORT WASTE RECEPTION & HANDLING PLAN 2023 – 2028	<b>REVIEW DATE</b>	23rd November 2023
<b>Document No.</b>		<b>REVISION</b>	14

## 6. DESCRIPTION OF PROCEDURES

### 6.1. Notification

All vessels other than those described in section 5 as providers of scheduled services and which have been granted an exemption under Section 9 of this plan, are required to email to the Harbour Master their need to use reception facilities, at least 24 hours (48 if possible) prior to arrival using the form in Section 11

The Master will communicate further with the Harbour Master as to the delivery of the Waste - Special Disposal needs should be identified at this time, when special arrangements are necessary for waste requiring special handling.

If there is a requirement to land International Catering Waste, because of the fact that there is rarely a demand for handling this type of waste in Rosslare and because of the special handling requirements required by the Dept of Agriculture, Food and the Marine, the port will require notice:

- (a) At least 24 hours (48 if possible) prior to arrival, if the port of call is known,
- (b) As soon as the port of call is known, if this information is available less than 24 hours prior to arrival, or
- (c) At the latest upon departure from the previous port if the duration of the voyage is less than 24 hours.

The Information from the advance waste notification shall be reported electronically using SafeseasIreland, or where for technical reasons SafeSeasIreland is unavailable via telephone or E Mail.

Permission from the Department of Agriculture, Food & the Marine will be required when all ICW is landed from outside territorial waters.

Waste from vessels under 300 gross tonnage, fishing vessel, traditional ships and recreational craft with a length of less than 45meters need not be subject to the above notice requirements, but instead will be handled through contact with the Port Operations Tower; subject to mutual agreement and permission from the Dept. of Agriculture, Food & the Marine.

### 6.2. Collection of waste

The Master and/or Agent will communicate the vessels waste collection requirements to the Port Operations Tower prior to arrival.

The Duty Controller will ensure there is sufficient skips available or if required will arrange for collection by the waste / recycling contractor from either the waste collection points on the berths as shown in Figure 1. or from the vessel directly.

<b>DOCUMENT:</b>	PORT WASTE RECEPTION & HANDLING PLAN	<b>ISSUED BY:</b>	Harbour Master
<b>Description</b>	PORT WASTE RECEPTION & HANDLING PLAN 2023 – 2028	<b>REVIEW DATE</b>	23rd November 2023
<b>Document No.</b>		<b>REVISION</b>	14

Smaller quantities of waste may be deposited in the skips by the vessel crew in the collection points on the berths.

The Location of the waste skips is outlined in Figures 1 & 2. The capacity of the Skips as outlined are as follows;

- B5 1100ltrs – General Waste.
- B6 1100Ltrs – Recyclable Waste.
- B7 1100Ltrs – General Waste.
- B8 1100Ltrs – Recyclable Waste.
- B10 - General Waste 14 Yard Cubic Closed Unit
- B11 – General Waste 14 Yard Cubic Closed Unit
- B12 – 2 x General Waste 14 Yard Cubic Closed Unit
- B15 – 3 x 1100Ltrs General Waste.
- B16 – 2 x 1100Ltrs Recyclable Waste.

Where larger quantities are to be landed the waste / recycling contractor can attend the vessel directly.

If International Catering Waste (ICW) is to be landed the Duty Controller will get the International Catering Waste skip/bin unlocked. When the vessel has finished landing her ICW the skip/bin is to be relocked and when full the designated contractor is to be called by the Duty Controller to exchange it.

The Agent for vessel discharging waste shall email the Harbour Master as to the type and amount of segregated waste landed ashore.

The ports waste skips are accessible 24 hours a day and are checked on a daily basis by the port operatives and collection is arranged by the duty Port Controller with the waste / recycling contractor as required. Empty skips replace the full ones on each occasion.

The Port will use third party external contractors to remove all waste & hazardous waste from the port. Port personnel do not remove waste. The waste / recycling contractor is centrally contracted by Irish Rail procurement under a tender process. The contractor is ISO 14001:2004 and OHSAS 18001:2007 accredited and uses a Licenced waste premises. Waste is taken directly from the port by the approved contractor who is suitable trained to deal with waste with specific attention given to dealing with hazardous waste, to a local EPA approved waste facility. The training of the waste contractors will be assessed as required.

### 6.3. Recording

Notification records are kept by the Harbour Master to record waste delivered ashore of all non-exempted vessels.

<b>DOCUMENT:</b>	PORT WASTE RECEPTION & HANDLING PLAN	<b>ISSUED BY:</b>	Harbour Master
<b>Description</b>	PORT WASTE RECEPTION & HANDLING PLAN 2023 – 2028	<b>REVIEW DATE</b>	23rd November 2023
<b>Document No.</b>		<b>REVISION</b>	14

When waste is landed ashore, a receipt [section 11.3] is to be given to the Master and/or sent electronically to the Agent.

Specific records for International Catering Waste are contained in section 11.4

<b>DOCUMENT:</b>	PORT WASTE RECEPTION & HANDLING PLAN	<b>ISSUED BY:</b>	Harbour Master
<b>Description</b>	PORT WASTE RECEPTION & HANDLING PLAN 2023 – 2028	<b>REVIEW DATE</b>	23rd November 2023
<b>Document No.</b>		<b>REVISION</b>	14

## 7.1. Handling of International Catering Waste (ICW) including all Catering & Galley Waste.

ICW includes any waste of animal (including dairy), avian or fish origin, and any material such as packaging which may have been in direct contact with such products. Therefore, all foodstuffs which are, or may be, of animal origin, and packaging such as tinfoil, cling film, plastic containers, drink cans etc. which are/may have been in direct contact with food residues must be disposed of as ICW.

-There is a presumption that all catering waste arriving in Ireland by sea or air is ICW, unless proof is provided otherwise. If segregation for recycling is to take place an operating procedure for decontamination must be agreed between the operator and the Department of Agriculture, Food and the Marine (DAFM) prior to commencement, and the agreed procedure strictly implemented by the operator.

*Article 8 of Regulation (EC) 1069/2009, classifies “catering waste from means of transport operating internationally” as Category 1 animal by-product. Therefore, ICW is Category 1 animal by-product. **operating internationally** all means of transport operating internationally, according to DAFM interpretation “international transport” is a transport between two countries: even two EU MS. This includes those of EU origin that leave the national ground or the coastal seas before returning to the EU and those making a first stop-over in the EU before arriving at the final destination. Waste food from means of transport operating internationally is considered as Category 1 catering waste. It must be disposed of in accordance with Article 12 of Regulation (EC) No 1069/2009*

All Catering & Galley waste generated from commercial vessels originating from outside the EU is regarded by the Dept. of Agriculture, Food & the Marine in Ireland as International Catering Waste and must be handled and disposed of as such.

Rosslare Europort has approval from Dept. of Agriculture, Food & the Marine to receive International Catering Waste.

### I. Notice :

Because of the special handling requirements required by the Dept. of Agriculture, Food & the Marine, which involves either incineration or deep burial at an approved landfill site, handling of this type of the waste will require at least 24 hrs (48 if possible) notice to the port from the ship.

Ships agents should inform vessels to report their ICW requirements along with the rest of their pre arrival notification.

### II. Storage in the Port :

In the port this closed and padlocked ICW skip will be stored in the ICW fenced and locked pen. The skip will be clearly marked for “ICW: Cat 1 for Disposal Only”. See Map Fig 1.

<b>DOCUMENT:</b>	PORT WASTE RECEPTION & HANDLING PLAN	<b>ISSUED BY:</b>	Harbour Master
<b>Description</b>	PORT WASTE RECEPTION & HANDLING PLAN 2023 – 2028	<b>REVIEW DATE</b>	23rd November 2023
<b>Document No.</b>		<b>REVISION</b>	14

### III. Procedure :

- When a vessel notifies the port that it requires the disposal of ICW the designated ICW contractor will be contacted and an empty skip will be delivered to the ICW pen in the port where the Maintenance foreman will padlock it.
- The Harbour Master will give a minimum of 24 hours' (48 if possible) notice to DAFM (Department of Agriculture, Food and the Marine) in advance of the ICW / CAT 1 Animal by Products waste being moved to Landfill site at [ICWRosslareBCP@agriculture.gov.ie](mailto:ICWRosslareBCP@agriculture.gov.ie)
- When the vessel arrives in port and is ready to have his ICW waste collected the Port Controller will arrange for the ICW skip to be brought by forklift from the ICW pen to the vessel. The ICW skip should only be unlocked for the period of time it takes to load the catering waste into it. It is then re-padlocked and returned to the ICW pen which will be locked until skip is removed by the licensed ICW mover. All ICW from ships must be delivered in durable plastic bags.
- The Duty Controller or Maintenance foreman will issue the vessel a Garbage Receipt as in Section 11.3 and will keep a copy which he will pass to the Harbour Master.
- When the skip is ready for collection the Maintenance foreman will contact the designated ICW waste contractor to collect it.
- The ICW waste contractor who is licenced by the Dept. of Agriculture, Food & the Marine to transport such waste to an approved waste reception facility, will collect the skip. When this is being done the driver will give the Duty Controller or Maintenance foreman the "Commercial Document" and the Maintenance foreman will remove the padlock.
- The "Commercial document" will be completed, stamped, and signed by the Company removing the waste. A scan of this will be sent to the Harbour Master who will maintain the records along with

The following documents are also to be retained by the Harbour Master

- 24 hour notification document.
- Garbage receipt.
- Copy of Commercial Document.
- ICW Record Log completed.
- The Harbour Master will e mail these scans to DAFM, Enniscorthy as follows: [ICWRosslareBCP@agriculture.gov.ie](mailto:ICWRosslareBCP@agriculture.gov.ie) and [Bob.Treacy@agriculture.gov.ie](mailto:Bob.Treacy@agriculture.gov.ie)
- The Maintenance Foreman will maintain a stock of approved disinfectant and a knapsack sprayer which will be used on the event of a spill.

<b>DOCUMENT:</b>	PORT WASTE RECEPTION & HANDLING PLAN	<b>ISSUED BY:</b>	Harbour Master
<b>Description</b>	PORT WASTE RECEPTION & HANDLING PLAN 2023 – 2028	<b>REVIEW DATE</b>	23rd November 2023
<b>Document No.</b>		<b>REVISION</b>	14

- Any spilled/leaked ICW material is placed in the ICW skip & any area that has spillages/leakage of ICW is immediately thoroughly cleaned and disinfected by an approved disinfectant (from the approved disinfectant list).

## 8. Disposal Methods ADVISING PORT USERS

The Harbour Master, through the normal regular contact with the Masters of Vessels and Agent(s) will keep all relevant parties fully informed of the procedures and will make copies of the plan available.

## 9. EXEMPTIONS

- (1) The Minister may exempt a ship calling at a port in the State from the obligations in Regulations 6, 7(1) and 9 (“exemption”), where there is sufficient evidence that the following conditions are met –
  - (a) the ship is engaged in scheduled traffic with frequent and regular port calls,
  - (b) there is an arrangement to ensure the delivery of the waste and payment of the fees in a port along the ship’s route which,
    - (i) is evidenced by a signed contract with a port or waste contractor and by waste delivery receipts,
    - (ii) has been notified to all ports on the ship’s route, and
    - (iii) has been accepted by the port where the delivery and payment take place, which can be a European Union port or another port in which, as established on the basis of the information reported electronically into SafeSeasIreland and in GISIS, adequate facilities are available, and
  - (c) the exemption does not pose a negative impact on maritime safety, health, shipboard living or working conditions or on the marine environment.
  
- (2) If the exemption is granted, the MSO shall issue an exemption certificate, based on the format set out in Section 9.1 (“exemption certificate”), confirming that the ship meets the necessary conditions and requirements for the application of the exemption and stating the duration of the exemption.
  
- (3) Notwithstanding the exemption granted, a ship shall not proceed to the next port of call if there is insufficient dedicated storage capacity for all waste that has been accumulated and that will be accumulated during the intended voyage of the ship until the next port of call.
  
- (4) Where there is non-compliance by a ship with paragraph (3), the master of the ship commits an offence and is liable on summary conviction to a class B fine.

<b>DOCUMENT:</b>	PORT WASTE RECEPTION & HANDLING PLAN	<b>ISSUED BY:</b>	Harbour Master
<b>Description</b>	PORT WASTE RECEPTION & HANDLING PLAN 2023 – 2028	<b>REVIEW DATE</b>	23rd November 2023
<b>Document No.</b>		<b>REVISION</b>	14

### 9.1. Procedure for applying for an Exemption

Master of vessel emails Harbour Master requesting an exemption, and specifying the requirement as per the table below:

<b>EXEMPTION</b>		<b>REASON (See Section 9 for full details)</b>	<b>Regulation</b>
1	Notify the Port Authority through SSI (Safe seas Ireland)	Operating on a scheduled route with frequent and regular port calls	6
2	To deliver all waste carried on board into the Port Facility	Vessel has a requirement to dispose of waste to incineration or has made contractual arrangements in other Port on the route	7
3	To pay fees to the Port Authority	Vessel has made its own waste reception arrangements, which is evidenced by a signed contract with a port or waste contractor and by waste delivery receipts	9

**Table 2: Exemption Application Procedure**

The Harbour Master will:

- Verify the reason for the exemption
- Audit elements of the vessel's waste disposal to ensure proper delivery elsewhere
- Confirm approval of request to Marine Survey Office

If the Marine Survey Office approves issue of exemption the Harbour Master will email a scanned copy of the exemption.

### EXEMPTION CERTIFICATE

Pursuant to Regulation 10 in relation to the requirements under Regulations 6, 7(1) and 9 of the European Union (Port Reception Facilities for Delivery of Waste from Ships) Regulations 2022 (S. I. No. 351 of 2022) AT THE PORT[S] OF ROSSLARE IN THE STATE

Name of ship

Distinctive number of letters

Flag State

<b>DOCUMENT:</b>	PORT WASTE RECEPTION & HANDLING PLAN	<b>ISSUED BY:</b>	Harbour Master

<b>Document No.</b>		<b>REVISION</b>	14

## 10. PORT RECEPTION FACILITY

### 10.1. Fees

The EU Directive states that each vessel must contribute 'significantly' to the cost of port waste reception facilities for ship-generated waste, without that cost providing a disincentive to use it. This is reflected in the Statutory Instrument as ' *A port authority of a port shall ensure that the cost of operating port reception facilities at the port for the reception and treatment of waste from ships, other than cargo residues, are covered by means of a due collection of a fee from ships*'.

No direct fee is charged for MARPOL Annex V waste other than cargo residues (except where the volume of waste delivered exceeds the maximum dedicated storage capacity) or passively fished waste. Additional charges, where appropriate will be covered on the basis of the type and quantity of waste actually delivered by the ship.

In Rosslare Europort the cost of port reception facilities for MARPOL Annex V Waste, including the treatment and disposal of the waste, shall be covered through the collection of an indirect fee from all ships.

Indirect fees will be fair, transparent, non-discriminatory and reflect the costs of the facilities and services made available, and, where used, the amount of the indirect fees and the basis on which they have been calculated shall be agreed with users.

They cover the indirect administrative costs and at least 30% of the total direct costs for the actual delivery of the waste during the previous year, for the use of the port reception facilities irrespective of whether the port reception facilities are used.

There will be no port administration charge on any waste handling.

Fees will be passed directly to the Agent for payment.

The indirect fees are based on the full costs incurred from centrally procured tenders by Iarnród Éireann.

A four-tier charges are as follows per visit:

<b>Vessel Class</b>	<b>Cost Per Vessel in Euro</b>
Vessels of less than 9,999 GT	31.33
Vessels of 10000 to 19,999 GT	97.00
Vessels of 20000 to 24999 GT	140.98
Vessels above 25,000 GT	175

**Table 3: Waste reception Fees**

<b>DOCUMENT:</b>	PORT WASTE RECEPTION & HANDLING PLAN	<b>ISSUED BY:</b>	Harbour Master
<b>Description</b>	PORT WASTE RECEPTION & HANDLING PLAN 2023 – 2028	<b>REVIEW DATE</b>	23rd November 2023
<b>Document No.</b>		<b>REVISION</b>	14

A reduction in fees of 20% may be obtained, if the ship’s environmental management, design, equipment, and operation are such that the master of the ship can demonstrate that it produces reduced quantities of ship generated waste using the following criteria;

The type of trade the ship is engaged in, short sea shipping trade in particular.

The ship’s design, equipment and operation demonstrate that the ship produces reduced quantities of waste and manages its waste in a sustainable and environmentally sound manner.

On-board segregation in accordance with Resolution MEPC.295(71) and ensured delivery to adequate port reception facilities that comply with Article 4(2)(d) of Directive (EU) 2019/883.

Environmentally sustainable purchasing policies (reduction of packaging materials such as bulk packaging and avoiding single use plastic)

The following waste is not covered in the above and will be charged separately to ship via ships agent at the rate based on the quantities of waste actually delivered by the vessel (as per S.I. No 351 of 2022). The fee obtained from the waste disposal company will for such quantities will be passed direct with no additional fee from Rosslare Europort.

- Hazardous waste.
- Oily waste / Sludge / Bilges.
- Sewage.

## 10.2. Responsibility

Responsibility for compliance lies with the Harbour Master.

## 10.3. Recording

- Email records of notification shall be maintained by the Harbour Master.
- The Maintenance Foreman shall keep records of all Contractor receipts
- All records held by the Port will be maintained for a period of 3 years.

## 10.4. Reporting alleged Inadequacies.

Initially, any grievance should be reported by the Master to the Port Operations Tower, or by the Agent to the Harbour Master.

If this cannot be solved locally, then the Agent or Master should use the procedure below to submit the form in Section 11 to the Department of Transport as designated in Section 6.4.

<b>DOCUMENT:</b>	PORT WASTE RECEPTION & HANDLING PLAN	<b>ISSUED BY:</b>	Harbour Master
<b>Description</b>	PORT WASTE RECEPTION & HANDLING PLAN 2023 – 2028	<b>REVIEW DATE</b>	23rd November 2023
<b>Document No.</b>		<b>REVISION</b>	14

### 10.5. Format for reporting alleged inadequacies in port reception facilities Compensation for undue delay.

The Master of a ship having encountered difficulties in discharging waste to reception facilities should forward the information (on relevant form), together with any supporting documentation, to the administration of the ship's flag state and, if possible, to the competent authorities in the port state.

A ship is entitled to compensation for any loss or damage suffered when unduly delayed, provided the Master of the ship has complied with the reporting procedure described in Section 6.1. In any instance of alleged undue delay the burden of proof shall lie with the Master of the ship **and Rosslare Europort will compensate for any proven delays.**

## 11. FORMS

### 11.1. Advance notification form for waste delivery to port reception facilities

#### Notification of the delivery of waste to Rosslare Europort

This form should be retained on board the ship along with the appropriate Oil Record Book, Cargo Record Book, Garbage Record Book or Garbage Management Plan as required by the MARPOL Convention.

##### 1. SHIP PARTICULARS

1.1 Name of ship:	1.5 Owner or operator:
1.2 IMO number:	1.6 Distinctive number or letters:
	MMSI (Maritime Mobile Service Identity) number:
1.3 Gross tonnage:	1.7 Flag State:
1.4 Type of ship: <input type="checkbox"/> Oil tanker <input type="checkbox"/> Chemical tanker <input type="checkbox"/> Bulk carrier <input type="checkbox"/> Container	
<input type="checkbox"/> Other ship cargo <input type="checkbox"/> Passenger ship <input type="checkbox"/> Ro-ro <input type="checkbox"/> Other (specify)	

##### 2. PORT AND VOYAGE PARTICULARS

2.1 Location/terminal name:	2.6 Last port where waste was delivered:
2.2 Arrival date and time:	2.7 Date of last delivery:
2.3 Departure date and time:	2.8 Next port of delivery:
2.4 Last port and country:	2.9 Person submitting this form (if other than the master):
2.5 Next port and country (if known):	

##### 3. TYPE AND AMOUNT OF WASTE AND STORAGE CAPACITY

Type	Waste to be delivered (m <sup>3</sup> )	Maximum dedicated storage capacity (m <sup>3</sup> )	Amount of waste retained on board (m <sup>3</sup> )	Port at which remaining waste will be delivered	Estimated amount of waste to be generated between notification and next port of call (m <sup>3</sup> )
MARPOL Annex I – Oil					
Oily bilge water					
Oily residues (sludge)					
Oily tank washings					
Dirty ballast water					

<b>DOCUMENT:</b>	PORT WASTE RECEPTION & HANDLING PLAN	<b>ISSUED BY:</b>	Harbour Master

### 3 INADEQUACY OF FACILITIES

#### 3.1 Type and amount of waste for which the port reception facility was inadequate and nature of problems encountered

Type of waste	Amount for discharge (m <sup>3</sup> )	Amount <u>not</u> accepted (m <sup>3</sup> )	Problems encountered Indicate the problems encountered by using one or more of the following code letters, as appropriate. A No facility available B Undue delay C Use of facility technically not possible D Inconvenient location E Vessel had to shift berth involving delay/cost F Unreasonable charges for use of facilities G Other (please specify in paragraph 3.2)
<b>MARPOL Annex I-related</b>			
Type of oily waste:			
Oily bilge water			
Oily residues (sludge)			
Oily tank washings (slops)			
Dirty ballast water			
Scale and sludge from tank cleaning			
Other (please specify .....)			
<b>MARPOL Annex II-related</b>			
Category of NLS <sup>4</sup> residue/water mixture for discharge to facility from tank washings:			
Category X substance			
Category Y substance			
Category Z substance			
<b>MARPOL Annex IV-related</b>			
Sewage			
<b>MARPOL Annex V-related</b>			
Type of garbage:			
A. Plastics			
B. Food wastes			
C. Domestic wastes (e.g. paper products, rags, glass, metal, bottles, crockery, etc.)			
D. Cooking oil			
E. Incinerator ashes			
F. Operational wastes			
G. Cargo residues			
H. Animal carcass(es)			
I. Fishing gear			
<b>MARPOL Annex VI-related</b>			
Ozone-depleting substances and equipment containing such substances			
Exhaust gas-cleaning residues			

<sup>4</sup> Indicate, in paragraph 3.2, the proper shipping name of the NLS involved and whether the substance is designated as "solidifying" or "high viscosity" as per MARPOL Annex II, regulation 1, paragraphs 15.1 and 17.1 respectively.

## 13. Approvals.

### 13.1. Department of Transport

**An Roinn Iompair**  
Department of Transport

30<sup>th</sup> January 2024

Captain Tom Curran  
Harbour Master  
Rosslare Europort

Dear Captain Curran,

I am pleased to inform you that the Port Waste Reception and Handling Plan submitted by Rosslare Europort as is required under Regulation 5 of S.I. No. 351 of 2022 - *European Union (Port Reception Facilities for the Delivery of Waste from Ships) Regulations 2022* has been approved. The plan is valid for 5 years from the date of this letter.

I wish to thank you for the time and effort you took in preparing the plan and in liaising with this Department during the approval process.

Yours sincerely,

Siobhain Brophy  
Maritime Environment Division
